

2.4 Categories

Some websites use a function to categorize the news. This means that the news can be displayed in different places on the website, for instance separating news into regular news and press releases. Below the tab Options you can add categories by checking the box of the category (1). Under this tab you will also find a function to add keywords for the news article, comma separated (2). (img 2.4.1).

2.4.1

About TYPO3manual.com

TYPO3manual.com is an online manual for editors working with TYPO3. It is powered by the web design agency Pixelant
