Intranet/Extranet function

If you have the function for Intranet and Extranet installed, you are able to create pages that need login to be shown. You can also administrate these users and user groups manually in the system.

With the extension User admin it is possible to automate the registration process.

1. User administration

1.1 Creating user groups
1.2 Creating users
1.3 Create and edit news

2. Page administration

2.1 Setting access to pages
2.2 Setting access to content
2.3 Adding login function
