

5.5.7 Slider

It is possible to add a slider to you website by using the 'Slider' element. The text, on top of each slide, is easily added using the images title, alternative text and description field. It is also possible to link each separate slide. The element can be found below 'Content elements' when creating a new element. (img 5.5.7.1)

New content element

Please select the type of page content you wish to create:

5.5.7.1

You can add a picture to the Slider when being on the 'Slides' tab and clicking on 'Add image'. There you can select one or multiple images from the file list. (img 5.5.7.2)

Create new Page Content on page "Typical page content"

Allowed file extensions:

GIF **JPG** **JPEG** **TIF** **TIFF** **BMP** **PCX** **TGA** **PNG** **PDF** **AI** **SVG**

5.5.7.2

To add text content to your Slide (after selecting an image) onto the picture you will find the information below the picture. If you can't see it, click on the grey bar (1) to expand the information. On the right hand side of the grey bar, you can find icons to handle the image, like deleting, hiding and moving the files. To add a header text, you activate the box 'Override' (2) and write the header in the 'Title' field (3). If you wish to have sub header, use the 'Alternative text' field (4) A link can be placed in the link field (5). To place a text the 'Override' box (6) of the Description field, has to be activated. The text can be written in the description field (7), which is a plain text field, and it is not possible to format this text with row breaks, linked text or any type of text transformation. All fields are optional. (img 5.5.7.3)
